

## The context

# 749,000

Refugees are estimated to be in Cox's Bazar. The concentration of refugees in this area is now among the densest in the world.

# +500,000

More than half a million refugees have fled violence in Myanmar and crossed into Bangladesh since 25 August, arriving without food, water or shelter.

## 'The fastest growing refugee crisis in the world.'

ISCG, 15 October 2017

## The response

Integral Members have conducted needs assessments and are responding with emergency health care and distributions of essential items. Members are both working directly and with local partners.
