On Thursday 24 February Russia launched a large scale military operation across Ukraine. Intense clashes have led to civilian casualties and damage to critical infrastructure, including power supplies. Numbers of casualties continue to rise and exact numbers are difficult to confirm. More than three million people, most of whom are women and children, have crossed into neighbouring countries. Conflict is disrupting supply chains leading to shortages of food and other basic items.

**Our response**

- **Food**
- **SHELTER**
- **WASH**
- **Essential supplies**
- **Medical supplies**
- **Cash transfers**
