## WHAT IS A NEGLECTED CRISIS?

Crises become neglected when we don't hear about them on our news bulletins and donors and policy makers no longer make them a priority. These crises are often protracted with complex causes such as conflict, climate change and poor governance. Integral Members and their Partners are already working with communities in many neglected crises.

**Please join us in praying for people in forgotten places that do not make the headlines...**

## PRAY FOR NEGLECTED CRISES AROUND THE WORLD

- Pray for Burkina Faso, Myanmar and Yemen where many people are suffering food shortages, conflict, price increases and drought—pray for Integral Members working in these countries
- Pray for governments to make funding decisions which support those living in neglected crises and reduce their suffering
- Pray for donors to be fair and support places that are most in need
- Pray for us all to be generous to those living in neglected crises even when we face our own struggles
- Pray for families suffering in places where hunger and violence have become the new normal and life feels like a constant emergency

## RECENT NEWS

The conflict in Ukraine has greatly affected global supplies of food and fertiliser, on top of warming temperatures and interruptions to supplies after the pandemic. Prices for food and fuel have increased dramatically, particularly affecting those already struggling in neglected crises. The UN is warning that millions more people could be pushed into hunger in the coming months.

## PRAY FOR THE DEMOCRATIC REPUBLIC OF CONGO

Minembwe is a remote rural area in the east of the country. It faces conflict, hunger and disease—challenges which can be seen in many places across Congo.

- Pray for local groups who are working for peace in Minembwe, seeking reconciliation and ways to live together so all can thrive
- Pray for those in need of food, healthcare and a safe place to live
- Pray for the children of Minembwe to receive the nutrition and education they need to grow
