This is the confidence we have in approaching God: that if we ask anything according to his will, he hears us.” —1 John 5:14

We’re still here.

WHAT IS A NEGLECTED CRISIS?
Crises become neglected when we don’t hear about them on our news bulletins and donors and policy makers no longer make them a priority. These crises are often protracted with complex causes such as conflict, climate change and poor governance. Integral Members and their Partners are already working with communities in many neglected crises.

Please join us in praying for people in forgotten places that do not make the headlines...

PRAY FOR NEGLECTED CRISSES AROUND THE WORLD
- Pray for peace, safety and help for families living in Burkina Faso, Myanmar and Sudan where displacement and violence have become the new normal and life feels like a constant emergency
- Pray for enough food for Afghanistan, Ethiopia and Madagascar where millions of families are suffering food shortages and drought
- Pray for provision and protection for Integral Members and their local Partners working in these countries

PRAY FOR DECISION MAKERS
- Pray for governments to focus primarily on the level of need and vulnerability within a country when making funding decisions
- Pray for donors to begin or continue to support crises that are not in the media and are underfunded
- Pray for us all to be generous to those affected by neglected crises even when we face our own struggles
- Pray for international organisations to support and strengthen locally-led crisis responses which are often more effective and sustainable
- Pray for international organisations to lobby their governments about their climate commitments, recognising that the impact of climate change is felt most intensely by the poorest and most vulnerable communities, especially those living in fragile and conflict-affected settings

THANK YOU FOR PRAYING WITH US
